

NEW!! Resources for Participants in RMTS

Your school district participates in the Random Moment Time Study or RMTS as part of the School Health Services Program. This program provides additional funding for health services for all students

Your involvement in the RMTS is vital to ensuring resources continue to be available for students. Health services in schools are essential; because healthy children do better in the classroom.

Please take a moment to review these valuable materials before responding to the RMTS questions.

RMTS Response Video *NEW*****

The intent of this video is to show some examples of health-related services in the school environment. Some situations may present characteristics of both health and educational services. Two versions are available for specific provider-types:

[Personal Care-Delegated Nursing](#)

[Related Service](#)
